

## **Security Report June 2018 Columbia Village**

The Pools are here so naturally start of the season we have already seen some minor things that we are trying to jump on. Mainly many teens coming down to swim without an adult and alcohol. We are getting a handle on it I would recommend sending out a notice of some kind as a reminder that kids will be asked to leave if no adult is present and they can't follow the rules. Also mentioning the no glass and alcohol policy.

We are seeing more and more teens out late at night. I would recommend one additional light facing the parking lot closer to the fence by the elementary school to further deter kids from hanging around the rec center at night.

It's also been brought to my attention that there was a theft at the R.V. lot. I know the lights are out all but one in that lot and we are looking at getting them fixed. I would also suggest a camera that can catch license plates at the gate going in and out of there as well and barbed wire in areas where it's been tampered with.

We have had several happy pool patrons compliment the board on having the sun shades up. I did want to pass that along. As well as what a fabulous job the pool crews have done thus far in having pools heated and ready to go.

As always during summer the consistent reminders that kids are out and to lock doors, leave a light on, park under well lit areas and do not hesitate reporting anything that is out of the ordinary is vital to security.
